Attendance Management System – Comparative Report

Objective

This report evaluates five attendance management solutions—Zoho People, Jibble, Tipsoi, Rysenova, and an On-Premise Attendance Device—based on features, mobile support, reporting, cost, and operational considerations.

---

1. Zoho People

Overview

Zoho People is a cloud-based HR and attendance management system offering comprehensive attendance tracking, leave management, and approval workflows.

Pros

- Easy and user-friendly UI/UX for employees
- Mobile app support for attendance and leave management
- Automated email reports and notifications
- Attendance reminders
- Advanced leave management with multi-level approval
- Fully cloud-based and remotely accessible

Cons

- Higher cost compared to local solutions
- Reporting is less flexible than Jibble

Cost

- **USD 2 per user/month (~244 BDT) when billed yearly**

2. Jibble

Overview

Jibble is a cloud-based attendance and time-tracking solution similar to Zoho People, but more affordable and easier in terms of reporting.

Pros

- Mobile app support for attendance and leave management
- Automated email reports and notifications

- Attendance reminders
- Advanced leave management with multi-level approval
- Reports are easier and more intuitive than Zoho People
- Very cost-effective

Cons

- Employees can apply for more leave than allocated, however only allocated leave is counted as paid leave.

Cost

- **60 BDT per user/month when billed yearly**

3. Tipsoi

Overview

Tipsoi is a 10 years old Bangladeshi cloud-based attendance and HR solution, offering features similar to Zoho People with localized support and pricing.

Pros

- Mobile app support for attendance and leave
- Email notifications
- Advanced leave management with multi-level approval
- Fully cloud-based and remotely accessible
- Supports on premises device

Cons

- Less mature ecosystem compared to Zoho
- Reporting and integrations may be limited

Cost

- **1,200 BDT per month for up to 25 employees/ 14400 tk yearly after**

4. Rysenova

Overview

Rysenova is a 4 years old Bangladeshi company, offers **cloud-based HR and attendance system**, similar in scope to Zoho People, targeting small to medium organizations in Bangladesh.

- **Same as Tipsoi**

Cost

- **1,500 BDT per month for up to 25 employees/ 18000 tk yearly after Discount 9000tk**

5. On-Premise Attendance Device

Overview

An on-premise solution combining physical attendance devices with a web and mobile application. Best suited for organizations requiring strict physical presence tracking.

Pros

- One-time payment (no recurring subscription)
- Mobile app support for leave application and attendance
- Employees can check in/out on premises using the device
- Attendance reports downloadable on demand
- Web application support
- Email notifications via custom SMTP server

Cons

- Physical presence required for attendance marking
- Mobile and remote access require opening the device port to the internet, which poses security risks
- Leave management supports only one approver
- Less flexible than cloud-based solutions

Cost

- **One-time hardware and setup cost(6000tk -12000tk product life time**)

Over all for Attendance and Leave management **Rysnova** is the cost-effective solution.
For Attendance only On-Premise Attendance Device is the cost effective solution.
